REGION 5 GOES RED!!!

Is this the new face of STARFLEET? Well, if the leadership of Region 5 has its way, it does. The following statement was just received here at CQ HQ:

"Based on the long standing negotiations of the Bourgeois leadership of STARFLEET International and the Communist International Movement, we are pleased to announce that all aspects and chapters of STARFLEET Region will suspend being part of those Capitalist Pigs of SFI who are governed by far too many individuals who seem too interested in Capitalist pursuits over the joys of comradeship.

Therefore, we will cease to be STARFLEET Region Five and are hereby organized into a new and exciting organization, Mighty People's SPACEFLEET International wherein we will compromise the Glorious Free People's Republics of Sektor Five.

Please feel to peruse our exciting new web display on the WWW (the WWW is a fascist capitalist tool of imperialist pigs): <http://www.region5.org/>

We will have our domain as soon as those fascist pigs at the InterNIC come through with our request.

If any of you are interested in joining our most noble glorious cause, please feel free to contact our People's Communist Party Chairman and Supreme Premier who will gladly indoctrinate you in the dialectic of current party theory.

For those of you seek to undermine the sanctity of our great democratic socialist free organization, please be advised that our diligent free infiltration units are working around the clock to usurp and under mind authority in the name of the perpetual glorious people's socialist revolution. We will blanket you!"

FLEET ADMIRAL SMITH SLAPPED WITH PATERNITY SUIT!

The Boston law firm of Fish and Cage today announced that they have filed a paternity suit against STARFLEET President Michael D. Smith on behalf of a Kimberly Brooks of Gatlinburg, Tennessee.

At 10:00am this morning, firm partners Richard Fish and John Cage presented the papers before Judge Thomas "I May Be A Little Guy, But I Wield A Big Gavel" Restivo in Suffolk County Court. On the courthouse steps, Mr. Fish remarked, "Sure, women like Ms. Brooks are sex objects, but does that fact give every Tom, Dick or Mikey the right to barge in on her bedchambers and say 'Give me some sugar, baby?'"

The sum Ms. Brooks is seeking is unknown, but when asked, she replied, "I'm just a poor Southern girl carrying my Admiral's love child." At which point Mr. Fish broke in and said, "Mr. Smith may

COMMUNIQUE EDITOR

Welcome to Issue #98 of the STARFLEET Communiqué. This will be my final issue as Editor, for as a Political Officer in the People's Sektor 05 Northwestern Fleet, I must resign my position with the Imperialist and Capitalist Pigs who make up the bourgeois Officer Corps of STARFLEET.

Microsoft Announces Michael D. Smith Joins Redmond Based Monopolist

REDMOND, Wash. — April 1st, 2000 — Microsoft Corp. today announced the immediate hiring of STARFLEET International's own Michael D. Smith.

"It's a big win for Microsoft," Uber-Chairman Bill Gates declared at the press conference covered by all the major networks, "Michael brings an excellent history of drawing fanatical hatred with him, and you all know, we can never have enough loathing and hatred directed at us. Other than crafting software that is actually fairly decent but is generally assumed to be useless, and is only purchased by an unwitting public because we lie, cheat, steal, extort, maim, rape, pillage and murder — receiving the vile hatred of the public at large is our favorite past-time. In this respect, Michael's experience as CS the last few months makes him a perfect hire."

"I was getting somewhat bored and lonely after the incessant flame attacks ceased," Fleet Admiral Smith commented, "without being vilified on a daily, almost hourly basis, my life ceased to have purpose or meaning. Working at Microsoft, I know that won't be a problem any more."

Details of a specific job description for the Fleet Admiral were left vague by comments of both men, suffice to say Michael would be working on a public Internet presence for the Redmond-based world domination corporation and software maker. "I have to stay out where the flames are, otherwise, what's the point?" Smith commented wryly.

Founded in 1975, Microsoft (Nasdaq "MSFT") is the worldwide leader in software for personal and business computing and generating animosity from fanatics, academics, and other software companies that are generally pissed they didn't get here first and refuse to forgive us for it. The company offers a wide range of products and services designed to empower people through great software - any time, any place and on any device, and engender as much vile and unjustified hatred while doing it as possible.
